

The MySpaPool vocal skill allows you to control any spa pool fitted with our SmartLink or SmartStream WiFi module by voice commands. Available on both Google Assistant and Amazon Alexa platforms, you can now talk to your spa to activate accessories and alter settings or ask it questions about active modes, settings and status. It really is as simple as talking to your spa.

### SpaLink App

Link your SpaLink app to either Amazon Alexa, Google Assistant or both, to control your spa by voice commands

### Action commands

Turn your pumps, blower and lights on and off, control pumps individually, change light modes or activate a sanitise cycle

### Set Commands

Use the set command to adjust set temperature point, filtration duration, operating mode, heat pump mode and element boost mode

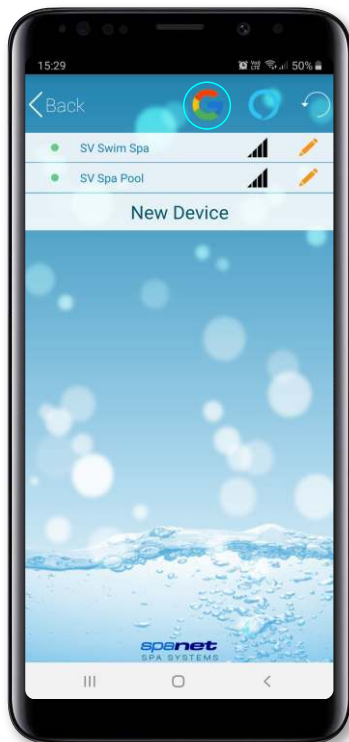

### Get Commands

Ask what is the water temperature, set temperature, operating mode, heat pump mode and element boost mode

## How to link your spa to Google Assistant

The following instructions assume you already have Google Assistant installed and activated on your phone or your Google Home device is powered on and connected to your home WiFi network.

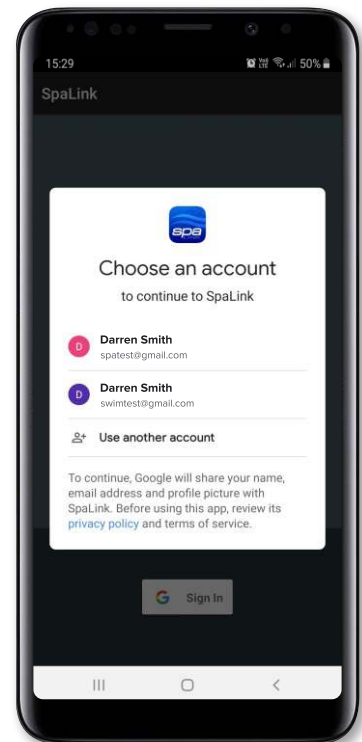

### Step 1

The first step is to link your SpaLink app to your Google account. Open SpaLink, tap Login and then tap Google logo at top of screen.

### Step 2

The Google Sign-In page will be presented. Tap on Sign In button at bottom of screen.

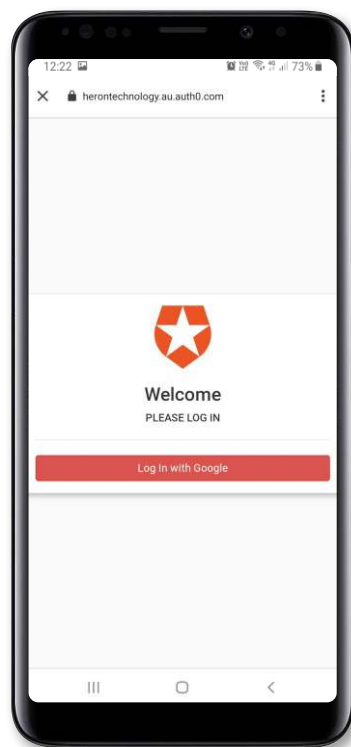

### Step 3

Select your Google account. If you have multiple accounts, use the account that is linked to your Google Home device.

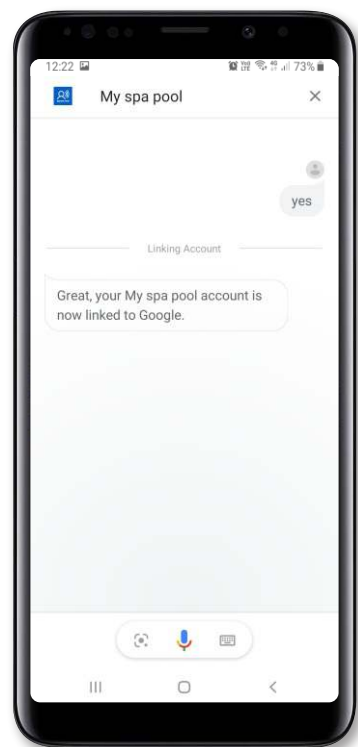

### Step 4

The next step is to link your Google account to the mySpaPool action. Start by saying **“Hey Google, talk to my spa pool”**.

### Step 5

When you answer ‘Yes’ to the link question you will see this screen. Tap Log In with Google to complete the account linking.

### Step 6

The final step is to advise MySpaPool which spa to issue commands to. Start by saying **“Hey Google, talk to my spa pool”**.

### Step 7

Now say **“List my spa”** and Google will list any spas setup on your SpaLink app. Select the spa number (i.e. 1 or 2), not the spa name, to complete the link

### Setup Complete

The setup is now complete. You can begin issuing vocal commands to your spa. i.e. **“Hey Google... ask my spa pool... turn pumps on”**

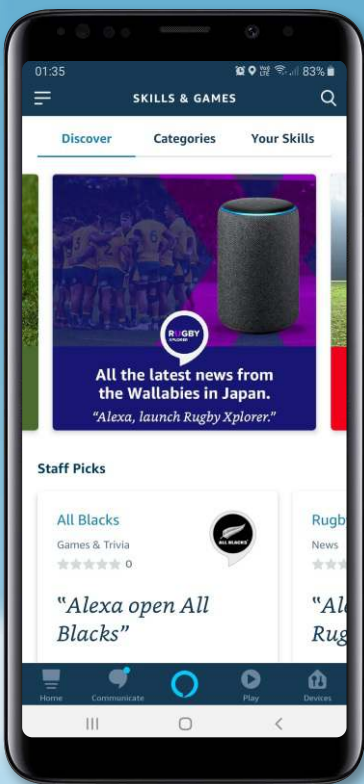

### Change Spas

If you have a dual-zone spa or multiple spas you can switch between available spas by issuing the **“List my spa”** command at anytime.

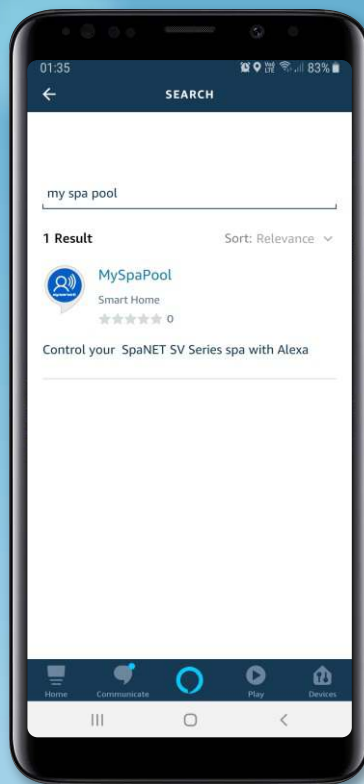

## How to link your spa to Amazon Alexa

The following instructions assume your Alexa device is powered on, connected to your home WiFi network and has been linked to your Amazon Alexa account.

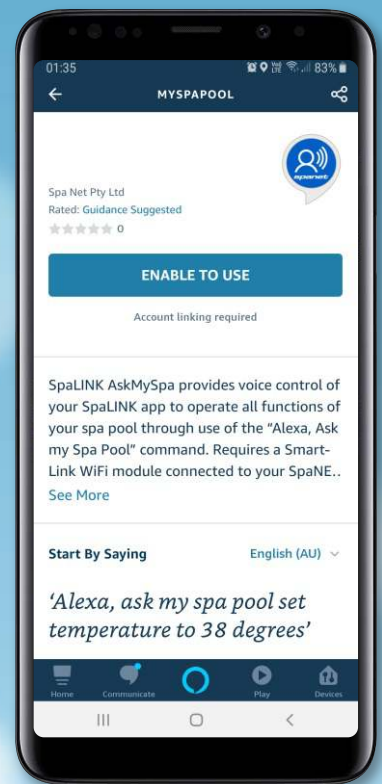

### Step 1

The first step is to open the Amazon Alexa app and navigate to **Skills & Games** via the menu bar in the top left corner.

### Step 2

Use the search bar to search for "My Spa Pool" and the skill will be displayed. Tap on the skill to select it.

### Step 3

The next step is to enable the skill, tap on the Enable bar.

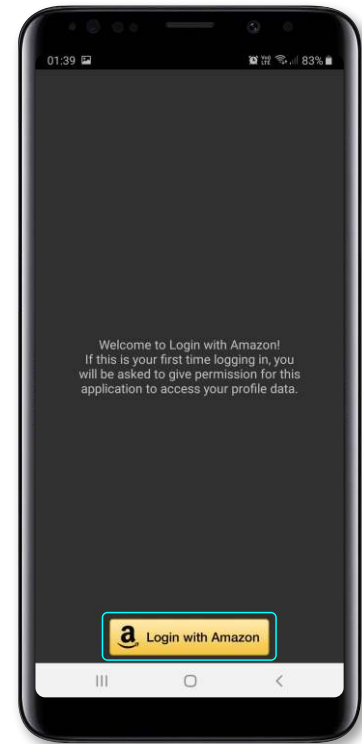

### Step 4

You have now successfully linked the MySpaPool skill to your Amazon Alexa account. The next step is to link the SpaLink app to your Alexa account.

### Step 5

Open SpaLink, tap Login and then tap on the Amazon Alexa logo at top of screen.

### Step 6

Tap on the Login with Amazon button and confirm your acceptance to complete the account link with SpaLink.

### Step 4

With account linked, the final step is to confirm which spa to issue commands to. Start by saying, **“Alexa... start my spa pool”**.

“Alexa, start my spa pool”

“I have connected to your spa, How can I help?”

“List my spa”

“Please tell me the number corresponding with the spa you would like to use from the following list: 1. SV Swim Spa. 2. SV Spa Pool.”

“one”

“I will now issue your commands to your spa SV Swim Spa”

### Setup Complete

Now say **“List my spa”** and Alexa will list any spas setup on your SpaLink app. Select the spa number (i.e. 1 or 2), not the spa name, to complete the link

“Alexa, ask my spa pool, turn pumps on”

“I have asked your spa to turn all pumps on”

“Alexa, ask my spa pool, list my spa”

“Please tell me the number corresponding with the spa you would like to use from the following list: 1. SV Swim Spa. 2. SV Spa Pool.”

“two”

“I will now issue your commands to your spa SV Spa Pool”

### Change Spas

You can now issue vocal commands to your spa. i.e. **“Hey Alexa... ask my spa pool... turn pumps on”**. To change spas issue the **“List my spa”** command again.

## Vocal Assistance Command List

### Google Assistant

Hey/OK Google... **ask my spa pool...** <command>
